Subject Community Environmental Data

Hi folks,

We are in the process of gathering information we would like to include in our next report. Since it will take time to analyze any data that you share with us, we are hoping to receive it soon. What we need are the air data results, and the quality assurance document that accompanies them.

Also, Bobbi, can you please send us the QAPP for the POCIS sample results?

You might be interested in this story that came out today - if you haven't already seen it:
